The annual accounts as at and for the year ended December 31, 2025 have been audited and the audit report was signed on March 17, 2026.

The attached cash flow statement has been prepared by using the balance sheet as of December 31, 2025 and the profit and loss account for the year then ended, which were prepared by the Company in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the annual accounts as described above.

BNP Paribas Fortis Funding S.A. presented the attached statement of cash flows in Euro.

The Company has used the following principles for the purpose of presentation and classification in this statement of cash flows:

The statement of cash flows shall report cash flows during the period classified by operating, investing and financing activities.

### **Operating activities**

Operating activities are the principal revenue-producing activities of the Company and other activities that are not investing or financing activities. Cash flows from operating activities are primarily derived from the principal revenue-producing activities of the Company. Therefore, they generally result from the transactions and other events that enter into the determination of profit or loss.

The Company reports cash flows from operating activities using the method whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

The Company reports under “Tax paid (IV)”, the amount effectively paid to the tax authorities during the period.

## **Note 1**

### **Notes to the Statement of cash flows for the year ended December 31, 2025**

The accounting policies set out in this Note have been established by the Board of Directors of BNP Paribas Fortis Funding S.A. for the purpose of defining the principles of presentation and classification applied in the preparation of this statement of cash flows. These policies govern how cash flows are identified, categorised and presented within the statement, and should be read in that context.

Cash flows arising from transactions in a foreign currency shall be recorded in Euro by applying to the foreign currency amount the exchange rate between the Euro and the foreign currency at the date of the cash flow.

Unrealised gains and losses arising from changes in foreign currency exchange rates are not cash flows. However, the effect of exchange rate changes on cash and cash equivalents held or due in a foreign currency is reported in the statement of cash flows in order to reconcile cash and cash equivalents at the beginning and the end of the period.
